Please visit the Radio HF web page at: http://www.radiohf.ca http://www.radiohf.ca/

The Radio HF Internet Newsletter is distributed monthly, free of charge, to subscribers by e-mail. The Newsletter is a collection of web sites specifically related to radio (AM/FM, shortwave, Internet radio, amateur radio, scanning and CB), communications, telecommunications, radio memorabilia and collectibles, media, journalism, science, technology, space and astronomy, weather, transportation, plus some fun things thrown in for good measure! Each edition includes links to web sites submitted by subscribers or by the editor. All sites are reviewed, verified and presented to you, with the URL, and a brief description of each site.

The Newsletter arrives in your in-box as an easy to read e-mail as well as an attached PDF version, with no fear of viruses. The subscriber list is secure, private and confidential. It will never be sold, redistributed or displayed.

Subscribers are encouraged to submit web sites for inclusion in future editions of the Newsletter. All contributors whose sites are published will receive a 2% discount on their next purchase from Radio H.F. The e-mail address for all contributions, comments, and subscription requests is hfnewsletter@yahoo.com mailto:hfnewsletter@yahoo.com

Archived editions from May 2005 to the most recent may be found at:

Welcome to the February 2017 issue the Radio HF Newsletter. If you are a football fan like me, you probably had a great time on Superbowl Sunday (unless you're an Atlanta Falcons fan!) watching perhaps the greatest Superbowl game every. There have been so many of the 51 games dubbed "Superbore" but this one certainly provided its share of excitement and suspense. Congratulations to the New England Patriots and their fans on an incredible comeback victory this year.

We're less than a month away now from the 30th anniversary Winter SWL Festival. I will be heading off to Plymouth Meeting, Pennsylvania on March 1st to participate in the event to be held March 2 to 4. It's the largest gathering of its kind in North America. This will be my 28th visit to the event. A full slate of interesting forums on all aspects of radio monitoring will be presented together with exhibits and other activities throughout the weekend. To mark the 30th anniversary of the event an extra day has been added making it a 3-day event. Over the years I have made many very close friends and I look forward to meeting up with many of them again this year. The event has become more than a conference. It is an annual reunion, plus a chance to meet up with new people with common interests. I am sure that I'll be running into some of you there. Please drop by the Radio HF booth and say "Hello". Full details of the event are available on the www.swlfest.com http://www.swlfest.com website.

Our Monthly Special Zone for February includes web pages on Groundhog Day, World Cancer Day, International Day of Women and Girls in Science, World Radio Day and Saint Valentine's Day.

This month's virtual voyage around the world, in the "Where in the World Zone", takes us to Southeast Asia, to the country of Vietnam. Officially the Socialist Republic of Vietnam, it is the easternmost country on the Indochina Peninsula in Southeast Asia. With an estimated 90.5 million inhabitants as of 2014, it is the world's 14th-most-populous country, and the eighth-most-populous Asian country. Vietnam is bordered by China to the north, Laos to the northwest, Cambodia to the southwest, Thailand across the Gulf of Thailand to the southwest, and the Philippines, Malaysia and Indonesia across the South China Sea to the east and southeast

Please share some of your favourite websites with us. I'd be happy to include them in a future edition of the Newsletter. Let's get going!

NEW FROM YAESU

FTM-100DR Dual-band mobile transceiver

The Yaesu FTM-100DR dual band mobile transceiver operates on 2 meters and 70 centimeters. The new FTM-100DR provides four modes:
-V/D mode is Voice and Data communication in the same time frame. Stable and reliable digital voice and data communications are maintained using extraordinarily strong error correction capabilities. This mode will be the basic mode of C4FM FDMA Digital HAM radio.
-Voice FR mode uses the full rate of data capacity for voice data. This mode enables you to transfer clear, high quality voice data.
-Data FR mode uses the full rate of data capacity for transferring data. This mode enables you to transfer large amounts of data, text messages, images, and voice memo data with double speed in V/D mode.
-Analog FM mode is effective when weak signal strength causes audio drop out in the digital mode, and enables communication up to the borderline of the noise level.
The radio features an Automatic Mode Select (AMS) function to identify these four modes and select them automatically when the radio receives a signal!

Full details on the Yaesu FT-100DR are available on the Yaesu webpage at
http://tinyurl.com/zq4frq3 http://tinyurl.com/zq4frq3

Yaesu products are available from Radio HF. Please contact Radio HF for pricing and availability.

30TH ANNUAL WINTER SWL FEST

http://www.swlfest.com http://www.swlfest.com

VIA Sheldon Harvey, Greenfield Park, Quebec

The Winter SWL Fest is a conference of radio hobbyists of all stripes, from DC to daylight. Every year scores of hobbyists descend on the Philadelphia, Pennsylvania suburbs for a weekend of camaraderie. The Fest is sponsored by NASWA, the North American Shortwave Association, but it covers much more than just shortwave; mediumwave (AM), scanning, satellite TV, and pirate broadcasting are among the other topics that the Fest covers. For 2017, the 30th Annual Winter SWL Fest will have three days of sessions, March 2, 3 and 4, 2017. Full details on registration and hotel reservations are found on the webpage. Hotel rooms disappear quickly so reserve ASAP. Radio HF will be there!

HACKADAY'S RADIO HACKS

https://hackaday.com/category/radio-hacks/ https://hackaday.com/category/radio-hacks/

VIA Sheldon Harvey, Greenfield Park, Quebec

Hacking is an art form that uses something in a way in which it was not originally intended. This highly creative activity can be highly technical, simply clever, or both. Hackers bask in the glory of building it instead of buying it, repairing it rather than trashing it, and raiding their junk bins for new projects every time they can steal a few moments away.

NO CABLE

https://nocable.org/ https://nocable.org/

VIA Sheldon Harvey, Greenfield Park, Quebec

The NoCable mission is to provide our website visitors with information surrounding how they can easily cancel their (likely high) cable TV bills. We provide information in a clear way that explains how anyone can get free Over-the-Air TV, which is an alternative to Cable TV. We aim to give our visitors the confidence to simplify their TV antenna and related product purchasing decisions and eventually cancel cable TV.
On the site you can search by state, by province or by callsigns.

The seeds of Instructables germinated at the MIT Media Lab as the future founders of Squid Labs built places to share their projects, connect with others, and make an impact on the world. Every day we continue to be amazed by the imagination, curiosity, and simple awesomeness of everyone who shares their creations with us on Instructables.

AVS FORUM

http://www.avsforum.com http://www.avsforum.com

VIA Sheldon Harvey, Greenfield Park, Quebec

AVS Forum began back in 1999, when home-theater buff David Bott decided to launch a Web-based forum for like-minded aficionados in collaboration with online retailer AV Science, from which the forum's name was derived. Since then, the membership has grown to nearly 1.2 million, with an average of more than 2.6 million unique monthly visitors who peruse over 25 million posts in more than 1.4 million threads, making AVS Forum the largest AV-enthusiast forum site in the world.
